

Rufsan Hossain

Senior Full-Stack Developer & Agency Founder

Dhaka, Bangladesh · rufsanhossainsanto@gmail.com · rufsansanto.com · github.com/rufsan · linkedin.com/in/rufsan

SUMMARY

Full-stack developer and CS graduate from Eastern University, currently at Media Pantheon, Inc. and running a development agency serving US-market clients. Building production SaaS products, AI-integrated web applications, and scalable data pipelines with the MERN stack, Next.js, and TypeScript. Focus on clean architecture, security-first engineering, and commercially viable features.

EXPERIENCE

Full-Stack Developer

Jan 2025 – Present

Media Pantheon, Inc. · Full-time

- Building production web applications using modern full-stack frameworks with TypeScript and React.
- Architecting scalable front-end and back-end systems for enterprise-grade products.
- Implementing CI/CD pipelines, automated testing, and code quality tooling across projects.

Founder & Lead Developer

2024 – Present

Agency / Freelance · Remote

- Founded a development agency building SaaS products, AI integrations, and data solutions for US-market clients.
- Delivered production applications using Next.js, TypeScript (strict mode), and MongoDB with enterprise-grade security.
- Established coding standards with strict ESLint configs, accessibility enforcement, and zero-warning codebases.

Brand Representative

Dec 2023 – Mar 2024

Interactive Cares · Dhaka

- Product research and software industry representation within the Dhaka tech ecosystem.

Senior Content Writer

Jun 2023 – Feb 2024

A1 DIGI · Dhaka

- Created SEO-optimized web content, conducted product research, and managed multi-project editorial workflows.

Next.js

TypeScript

MongoDB

SaaS

Audex

Code quality analysis tool providing automated audits, linting reports, and actionable improvement recommendations for development teams.

React

Node.js

AST Analysis

DevTools

Portfolio Platform

Custom-built portfolio with Next.js 16, strict ESLint, accessibility enforcement, command palette, and Vercel deployment with automated CI/CD.

SKILLS

Frontend

React, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3

Backend

Node.js, Express, MongoDB, Mongoose, REST APIs, Python

AI / ML

LLM Integration, RAG Pipelines, OpenAI API, Prompt Engineering

Data

Pandas, Data Pipelines, Visualization, Analytics

DevOps

Vercel, Git, CI/CD, Docker, ESLint, Automated QA

Security

RBAC, JWT, Zod Validation, Helmet, CORS, XSS Prevention

Design

Figma, UI/UX, Mobile-First, Accessibility (a11y)

EDUCATION

B.Sc. Computer Science & Engineering

Eastern University

2018 – 2023 · GPA 3.52

Higher Secondary (Science)

Dhaka College

2015 – 2017 · GPA 5.00

LANGUAGES

English — Professional

Bangla — Native

APPROACH

- Domain modeling before code
- Security-first architecture
- Strict TypeScript, zero any
- Mobile-first responsive design
- Accessibility as standard
- Building in public
